PROFESSIONAL SUMMARY

Full-stack developer with 2+ years of experience building web, mobile, and backend applications for clients across fintech, government, manufacturing, and communities. My work spans Android and Flutter development, backend systems with Golang and Python, and applied machine learning. Recent projects include a fintech remittance app, a multi-tenant accounting platform, and a mobile app built for the Indonesian Navy. I'm fluent in English and comfortable owning a project end-to-end — from architecture to deployment.
